

Houston's Original Cupcake Specialty Bakery

Sugarbaby's Cupcake Boutique is Houston's original cupcake specialty bakery and gift shop. Family owned and operated, they put their hearts in everything they do – from using only the finest ingredients in all their recipes, to how they service customers and package their baked goods.

At Sugarbaby's, cupcakes and desserts are prepared fresh daily right in their kitchen. Their recipes include real

butter, vanilla bean and Madagascar bourbon vanilla, Guittard and Callebaut chocolates and cocoas, and other premium ingredients. Because there are no artificial preservatives or additives in their desserts, the bakers prepare just enough for each day – sometimes selling out. What isn't sold is donated to local organizations and shelters. This ensures customers receive only fresh treats each and every day.

When visiting Sugarbaby's, you'll find a wide variety of flavors like old fashioned vanilla bean, dark chocolate, red velvet and carrot cake, and a selection of flavors that change throughout the week like toffee crunch, s'mores, dippity doo dah, and chocolate covered strawberry. New flavors are introduced each month to keep things interesting. Enjoy your desserts in their attractive dining area with a cup of exclusive Dean and DeLuca coffee or tea, or just browse around and check out the unique selection of china, teas, candies and other goodies perfect for gift giving. They are also happy to accommodate

special order requests for color and decorative details to match any party theme.

Speaking of parties, Sugarbaby's is also a great place to host your next event. Their private party room holds about 24 people, and is the perfect space for children's birthday and "decorate your own cupcake" parties, as well as baby and bridal showers or other gatherings.

Check out their eye-catching and informative website at www.ilovesugarbabys.com for each month's menu and all the details about the shop. Stop by soon to *chill* and treat yourself, your clients, your family or your friends to some delicious cupcakes from Sugarbaby's.

How do you combine self indulgence with self control?

One delicious cupcake at a time.
